REPORT OF HEALTH OFFICER

I herewith submit my report as Health Officer for the year ending Jan. 31, 1922.

We have had in the last year, the usual run of contagious diseases consisting of measles, scarlet-fever and diptheria each case was quarantined and houses of each fumigated, with out the loss of a single case, much to the credit of our able and proficient, Dr. A. W. Mitchell.

The inspection of the school children, and the observance of clean up week, assists greatly in warding off the the above diseases. As is the usual custom, I visited the schools, to compell all to comply with the law, relating to vaccination also to inspect the sanitary conditions.

Several complaints have come to me regarding sink drains and out-houses, also some of our business men displaying food and confectionery, to flies, dirt and dust.

Several samples of the Epping water was sent to the State Chemist for analysis and on each occasion reported free from bacteria.

In conclusion, I wish to ask all, to assist me in the performance of my duties to the end that our town, may be made a cleaner and better place to live in.

GEORGE A. GILMORE,
Health Officer.
